Community Voice Support wanted for WaSe7 GmbH (Volunteer)

Company

The WaSe7 GmbH was founded in 2020 and took over operations related to WarmupServer in early 2021. The game Counter-Strike 2 serves as the foundation for our servers, and thousands of CS2 players use them to improve their skills. The history of WarmupServer began in 2016 as a hobby, at a time when only Fragshack's game servers were professionally maintained. Back then, our founder and CEO worked full-time as a mathematician at an insurance company.

By 2017, this evolved into a small business, and the dream of a global game server network - now a reality - began to take shape. At that time, our servers were based on CS:GO, which experienced massive growth from 2012 to 2023. This growth, along with the skin market, led to the emergence of other professional companies around Counter-Strike.

In 2023, CS was ported to a new engine - CS:GO became CS2. We managed this transition with a team of three employees and, after a delayed release due to our high quality standards, fought our way back to the top by the end of 2024.

The year 2025 was focused on building internal structure and solidifying our future goals externally. 2026 is the year of growth. We will release new products and are looking for highly motivated individuals who want to become part of a team striving to achieve something great with full energy.

Our company thinks long-term and values honesty, openness, reliability, unity, and - especially in software development - sustainability and efficiency. We are looking for friends, partners, and highly motivated team members for the long run - people who want to grow with us. Character and personal values are therefore extremely important to us.

How you can support us:

- Pro verification
- Ban and unban management
- Social media content & interaction
- Collecting your own and external WarmupServer video material
- Become part of the "voluntary community team"
- helping other users via Discord

There are no fixed working hours or obligations!

This is explicitly not an employment relationship!

Voluntary
(m/f/d)

What you bring to the table:

- You regularly play on WarmupServer
- You enjoy online presence and social media
- You are very familiar with Discord
- You are friendly when interacting with others
- You act as a role model
- You speak excellent English
- You are confident in handling community guidelines
- You already invest time and passion into the community on a regular basis

Your motivation:

This role is voluntary, unpaid community support. There is no monetary compensation, and you are not bound by instructions in your contributions. You will gain exclusive insights into WaSe7 GmbH and you have the opportunity to acquire knowledge. For special personal occasions such as birthdays, small tax-free gifts are planned. For your support, you may receive special server privileges such as VIP. Through your participation in social media events, you will have the opportunity to promote your own social media accounts and showcase your skills by providing gameplay videos.

How to apply and what happens next:

- **Please upload your motivation letter on our growth website**
- You can also attach your CV and any certificates
- Contact us via Discord and register on [Universesigna.com](https://universesigna.com)
- If you have questions, feel free to email Marketing@warmupserver.net or send a carrier pigeon or message in a bottle and hope for the best
- We will then invite you to a Discord call
- For particularly important tasks involving sensitive data, we may ask you to verify your identity
